

On behalf of ITS America, alongside our valued partners ITS Asia-Pacific and ERTICO-ITS Europe, I am thrilled to welcome you to the ITS World Congress 2027 in Birmingham, England.

As the leading global event for transportation innovation, the ITS World Congress brings together visionaries and leaders from around the world to exchange ideas, showcase breakthrough technologies, and build the partnerships that will shape the future of mobility. This is where collaboration accelerates progress and bold ideas turn into real-world impact.

England stands as a global leader in transportation innovation—leading advancements in smart mobility, integrated transport networks, and forward-looking policy that supports both safety and sustainability. Birmingham provides a fitting backdrop for this exchange of ideas, reflecting a strong legacy of connectivity and continued investment in modern transportation systems.

ITS America is honored to be part of this global movement. For over 30 years, this Congress has driven advancements in technology-enabled transportation, making our systems safer, more efficient, and more connected, and continues to lead at the forefront of emerging innovation.

In Birmingham, we will explore the most pressing and promising topics in ITS, including digital infrastructure, artificial intelligence, connected and automated vehicles, and policies that foster both safety and innovation. I look forward to seeing everyone there as we come together to *“Connect ideas. Transform transport.”*

Laura D. Chace
President and CEO
Intelligent Transportation Society of America
